OBJECTIVE

Aspiring AI/ML Engineer skilled in Python, Machine Learning, Deep Learning, and NLP with experience in building AI-powered applications and intelligent systems.

EDUCATION

B.Tech in CSE-AI & ML , GMR Institute of Technology	(2023 – 2027) · CGPA: 9.4
Intermediate (MPC) , Sasi Junior College	(2021 – 2023) · 98.2%
SSC , Sasi English Medium High School	(2020 – 2021) · Marks: 562

INTERNSHIP EXPERIENCE

Machine Learning Intern , Hinisys Software	(March 2026)
• Worked on ML and Deep Learning models with practical implementation.	
Python Full Stack Development Intern , Datavalley Pvt. Limited	(June 2025)
• Developed web applications using Django with backend and database integration.	

PROJECTS

Car Damages Assessment-Insurance claim [GitHub]	Tech: OpenCV, Flask, Python, Gemini API
• Built an AI system to detect vehicle damage using computer vision and claims insurance to specific insurance company.	
• Utilized deep learning models for accurate damage classification.	
Mentor AI [Live] [GitHub]	Tech: React, Flask, Grok API, Python
• Built an AI-powered education and placement preparation platform for students.	
• Implemented concept explanation, interview preparation, quiz generation, timetable creation, and resume analysis features.	
Internship Recommendation System [GitHub]	Tech: Html, Css, Django, NLP
• Developed a system to recommend internships based on user profile and skills.	
• Applied NLP and ML techniques to improve matching accuracy.	
Helmet and Number Plate Detection [GitHub]	Tech: OCR, YOLO, Django, Python
• Developed a system for traffic monitoring using deep learning.	
• Detected helmet usage and extracted number plates in real-time.	
AP Elections 2024 Dashboard	Tech: Power BI, Data Visualization
• Designed an interactive dashboard to analyze Andhra Pradesh Elections 2024 data.	
• Visualized party-wise results, vote share, constituency analysis, and election insights.	

SKILLS

ACHIEVEMENTS

- **Languages:** Python
- **AI/ML:** ML, Deep Learning, NLP
- Prompt Engineering
- **Web:** Html,Css,Flask, Django
- **Databases:** SQL
- **Tools:** Github,Power BI

- GATE Qualification (2026) – Rank: 1863
- 2 Star Coder in CodeChef
- LeetCode: 300+ problems solved
- GeeksforGeeks: 250+ problems solved

CERTIFICATIONS

- | | |
|-------------------------------|--------------------------------|
| • Python Full Stack Developer | • Prompt Engineer |
| • Generative AI | • Joy of Computing with Python |

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge.
